Index to Volume 130

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (January): 1–112
Number 2 (April): 113–224
Number 3 (July): 225–336
Number 4 (October): 337–464

AUTHOR INDEX

Arthur, G. L., Brende, J. O., & Quiroz, S. E. *Violence: Incidence and frequency of physical and psychological assaults affecting mental health providers in Georgia.* 22–45.

Bartgis, J., Lilly, A. R., & Thomas, D. G. *Event-related potential and behavioral measures of attention in 5-, 7-, and 9-year-olds.* 311–335.

Campos, A., González, M. A., & Amor, A. *Limitations of the mnemonic-keyword method.* 399–413.

Charter, R. A. *A breakdown of reliability coefficients by test type and reliability method, and the clinical implications of low reliability.* 290–304.

Charter, R. A. *Study samples are too small to produce sufficiently precise reliability coefficients.* 117–129.

Contreras, Mª. J., Colom, R., Hernández, J. M., & Santacreu, J. *Is static spatial performance distinguishable from dynamic spatial performance? A latent-variable analysis.* 277–288.

DiBattista, D., Hollis-Walker, L., & Hague, L. *The CS-preexposure effect in conditioned taste-aversion learning in golden hamsters.* 446–461.

Dougherty, D. M., Bjork, J. M., Moeller, F. G., Harper, R. A., Marsh, D. M., Mathias, C. W., & Swann, A. C. *Familial transmission of continuous performance test behavior: Attentional and impulsive response characteristics.* 5–21.

Dunlap, W. P. *Some thoughts regarding the sensitivity of t to error in estimated within-group variance.* 59–65.

Goodie, A. S., Williams, C. C., & Crooks, C. L. *Controlling for causally relevant third variables.* 415–430.

Hittner, J. B., May, K., & Silver, N. C. *A Monte Carlo evaluation of tests for comparing dependent correlations.* 149–168.

Jones, K. S., Weiler, E. M., Warm, J. S., Dember, W. N., & Sandman, D. E. *Loudness adaptation: Fact or artifact?* 341–358.

Kelemen, W. L., & Creeley, C. E. *State-dependent memory effects using caffeine and placebo do not extend to metamemory.* 70–86.

Kornowski, J. A., & Petersik, J. T. *Effects on face recognition of spatial-frequency information contained in*

Jones, K. S., Weiler, E. M., Warm, J. S., Dember, W. N., & Sandman, D. E. *Loudness adaptation: Fact or artifact?* 341–358.

Kelemen, W. L., & Creeley, C. E. *State-dependent memory effects using caffeine and placebo do not extend to metamemory.* 70–86.

Kornowski, J. A., & Petersik, J. T. *Effects on face recognition of spatial-frequency information contained in*

inspection and test stimuli. 229–244.
Landis, R. S., & Burke, M. J. *William P. Dunlap (1941–2002).* 67–68.
Lehman, E. B., Srokowski, S. A., Hall, L. C., Renkey, M. E., & Cruz, C. A. *Directed forgetting of related words: Evidence for the inefficient inhibition hypothesis.* 380–398.
Lokken, K., Ferraro, F. R., Kirchner, T., & Bowling, M. *Gender differences in body size dissatisfaction among individuals with low, medium, or high levels of body focus.* 305–310.
Lutz, J., Briggs, A., & Cain, K. *An examination of the value of the generation effect for learning new material.* 171–188.
Marmurek, H. H. C. *Coloring only a single letter does not eliminate color-word interference in a vocal-response Stroop task: Automaticity revealed.* 207–224.
Oien, K. M., & Goernert, P. N. *The role of intentional forgetting in employee selection.* 97–110.
Reinhardt-Rutland, A. H. *Induced rotational motion with nonabutting inducing and induced stimuli: Implications regarding two forms of induced motion.* 260–274.
Riniolo, T. C., Koledin, M., Drakulic, G. M., & Payne, R. A. *An archival study of eyewitness memory of the* Titanic*'s final plunge.* 89–95.
Riopelle, A. J. *Functional anatomy of the null hypothesis and of tests of it.* 47–57.
Rudski, J. *What does a "superstitious" person believe? Impressions of participants.* 431–445.
Tekman, H. G. *Effects of accenting and regularity on the detection of temporal deviations: Does regularity facilitate performance?* 247–258.
Unger, W., Evans, I. M., Rourke, P., & Levis, D. J. *The S–S construct of expectancy versus the S–R construct of fear: Which motivates the acquisition of avoidance behavior?* 131–147.
Wenzel, A., Barth, T. C., & Holt, C. S. *Thought suppression in spider-fearful and nonfearful individuals.* 191–205.
Wilson, S. P., Kipp K., & Chapman, K. *Limits of the retrieval-inhibition construct: List segregation in directed forgetting.* 359–379.

TITLE INDEX

An archival study of eyewitness memory of the *Titanic*'s final plunge. *Todd C. Riniolo, Myriah Koledin, Gregory M. Drakulic, & Robin A. Payne.* 89–95.
A breakdown of reliability coefficients by test type and reliability method, and the clinical implications of low reliability. *Richard A. Charter.* 290–304.
Coloring only a single letter does not eliminate color-word interference in a vocal-response Stroop task: Automaticity revealed. *Harvey H. C. Marmurek.* 207–224.
Controlling for causally relevant third variables. *Adam S. Goodie, Cristina C. Williams, & C. L. Crooks.* 415–430.
The CS-preexposure effect in conditioned taste-aversion learning in golden hamsters. *David DiBattista, Laurie Hollis-Walker, & Leslie Hague.* 446–461.
Directed forgetting of related words: Evidence for the inefficient inhibition hypothesis. *Elyse Brauch Lehman, Sally A. Srokowski, Laura C. Hall, Mary E. Renkey, & Carmen A. Cruz.* 380–398.
Effects of accenting and regularity on the detection of temporal deviations: Does regularity facilitate performance? *Hasan Gürkan Tekman.* 247–258.
Effects on face recognition of spatial-frequency information contained in

inspection and test stimuli. *Jane A. Kornowski & J. Timothy Petersik.* 229–244.

Event-related potential and behavioral measures of attention in 5-, 7-, and 9-year-olds. *Jami Bartgis, Alesha R. Lilly, & David G. Thomas.* 311–335.

An examination of the value of the generation effect for learning new material. *John Lutz, Amanda Briggs, & Kristy Cain.* 171–188.

Familial transmission of continuous performance test behavior: Attentional and impulsive response characteristics. *Donald M. Dougherty, James M. Bjork, F. Gerard Moeller, R. Andrew Harper, Dawn M. Marsh, Charles W. Mathias, & Alan C. Swann.* 5–21.

Functional anatomy of the null hypothesis and of tests of it. *Arthur J. Riopelle.* 47–57.

Gender differences in body size dissatisfaction among individuals with low, medium, or high levels of body focus. *Kristine Lokken, F. Richard Ferraro, Tara Kirchner, & Margo Bowling.* 305–310.

Induced rotational motion with nonabutting inducing and induced stimuli: Implications regarding two forms of induced motion. *A. H. Reinhardt-Rutland.* 260–274.

Is static spatial performance distinguishable from dynamic spatial performance? A latent-variable analysis. *M ª José Contreras, Roberto Colom, José M. Hernández, & José Santacreu.* 277–288.

Limitations of the mnemonic-keyword method. *Alfredo Campos, María Angeles González, & Angeles Amor.* 399–413.

Limits of the retrieval-inhibition construct: List segregation in directed forgetting. *Steffen Pope Wilson, Katherine Kipp, & Kevin Chapman.* 359–379.

Loudness adaptation: Fact or artifact? *Keith S. Jones, Ernest M. Weiler, Joel S. Warm, William N. Dember, & David E. Sandman.* 341–358.

A Monte Carlo evaluation of tests for comparing dependent correlations. *James B. Hittner, Kim May, & N. Clayton Silver.* 149–168.

The role of intentional forgetting in employee selection. *Kathryn M. Oien & Phillip N. Goernert.* 97–110.

Some thoughts regarding the sensitivity of *t* to error in estimated within-group variance. *William P. Dunlap.* 59–65.

The S–S construct of expectancy versus the S–R construct of fear: Which motivates the acquisition of avoidance behavior? *William Unger, Ian M. Evans, Patricia Rourke, & Donald J. Levis.* 131–147.

State-dependent memory effects using caffeine and placebo do not extend to metamemory. *William L. Kelemen & Catherine E. Creeley.* 70–86.

Study samples are too small to produce sufficiently precise reliability coefficients. *Richard A. Charter.* 117–129.

Thought suppression in spider-fearful and nonfearful individuals. *Amy Wenzel, Tara C. Barth, & Craig S. Holt.* 191–205.

Violence: Incidence and frequency of physical and psychological assaults affecting mental health providers in Georgia. *Gary L. Arthur, Joel O. Brende, & Stacy E. Quiroz.* 22–45.

What does a "superstitious" person believe? Impressions of participants. *Jeffrey Rudski.* 431–445.

William P. Dunlap (1941–2002). *Ronald S. Landis & Michael J. Burke.* 67–68.
